Post-Doctoral Research Fellow

There is an immediate opening for a Post-Doctoral Research Fellow position in the laboratory of Dr. Soumitro Pal at Boston Children's Hospital and Harvard Medical School, MA. The applicant has to be a PhD in any branches of Biological Science (preferably within first year after completion of PhD); and must be motivated and hard working. Needs some experience in molecular biology/immunological techniques/flow cytometry/cancer related works. The fellowship will be according to the NIH scale.

Job Description: The project involves mechanistic studies for the immune escape of tumor cells (mostly renal cancer cells); and the role(s) of tyrosine kinase receptors and metabolic pathways within the tumor cells. Both *in vitro* (tissue culture) and *in vivo* (murine models) approaches will be utilized.
